Subject: Letter of Recommendation for Teddie Snodgrass

19 November 2007

To Whom It May Concern:

The purpose of this letter is to recommend Teddie Snodgrass for employment in any field her undertakes. I have known Ted for two years now and have continuously been impressed with his management abilities as 2nd-In-Command and Charge Nurse of the Progressive Care Unit (PCU) during his assignment here at Tripler Army Medical Center. He has been a positive influence for everyone he supervises on a daily basis and is to be commended for his administrative abilities.

The pleasant and warm ambience Ted provides makes it comfortable for both patients and staff; he truly is a pleasure to work with.

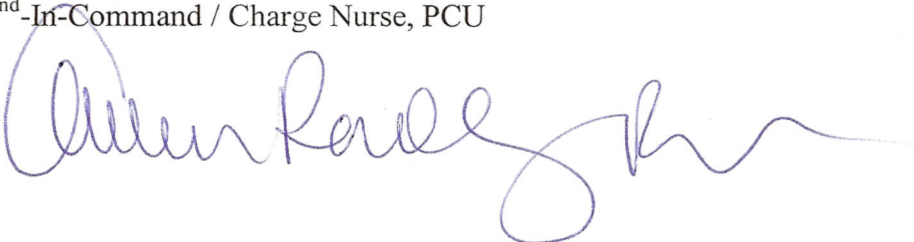

He continuously strives to make the working environment a better place for everyone. He is a knowledge resource that everyone seeks advise on "how to" in many different areas of nursing and he's a incredible resource in systems information. He is always eager to lend a helping hand, even if it means that he has to work a little harder. As a result, of his continuous efforts, I've seen the quality of our customer care and satisfaction drastically improved over the past two years.

Ted truly gives me a good impression of the United States Army / Department Of Defense. I, for one, sincerely respect him for that. He certainly has made my job easier, as well as others, since he has been assigned here in the PCU.

Ted would, without question, be an enormous asset to your organization. Do not hesitate to employ him now.

Sincerely,

Amber Rowley, RN
2nd-In-Command / Charge Nurse, PCU
